Hello Harold.

Health is good. Got letter from Rife. Looks like we will hold off going forward until April or March on his thing. We now have a new governor here with a very liberal director of corrections. That might help.Bunch of stuff you might need inclosed. Did you know that the Realist had a very long piece on assassinations and The New York Times by Jerry Policoff? You are mentioned several times. I'll copy if you need.A friend of mine just bought one of those [redacted] Sony's and it is quite good. He recorded a conversation with it in his coat pocket. Wish I could afford. Kerner thing was a surprise. He said it was a Nixon vendetta.
